

hi retail®

2020 is the year of RiEvolution for Brugnotto Group: our participation in the EuroShop fair in Düsseldorf corresponded to a new organisation of the company, starting from a new group image.

After 10 years of activity, the Shop Interiors division changes its skin and gives way to Hi Retail, whose name already tells us its mission: high-quality elements with a sophisticated design for the shopfitting industry.

Hi Retail will also be a synonym for interior design to 360 degrees, with the continuous proposals of sceneries and ambients. No longer just single products but a skillful product mix, together with the amazing range of wood and metal finishes, which will give life to an ever-changing context.

The skylight

An ordinary January rainy evening. While leaving the office, two men notice some rain leaking through the worn gaskets of a showroom skylight. While MF goes to find a bucket and a mop, HB turns on the lights, and when the other returns he says:

"It's obvious that there are a lot of things that should be sorted out here..."

"You're talking about furniture, right?"

"Yes."

"I've been thinking about this for a while, too. And maybe we should get rid of some old pieces."

"More than some pieces... and what is left will have to be restored. Then why don't we design something new while we're at it."

"Well said! Here in Brugnotto we don't have problems, we can do anything. All we have to do is gather ideas from everyone - and we have plenty of them -, we have the will and the ability, and also the means."

"You know what? We have a meeting tomorrow, and we will say that. We must let go of the same old operations, it's time for some serious stuff. An all-out restyle, from products to communication, nothing has to be left outside."

"I agree with you. Let's tell them."

The day after that air is clear and crisp.

During the meeting, the two men take the stage and, after warning about the leaking skylight in the showroom, which needs to be repaired, they explain their idea of restyling the products. They go with it together, with nothing planned, but what they say seems anything but improvised. Maybe because they've been thinking about it for a long time.

Anyone in the room agree, from the ownership to the commercial department, up to the technicians.

In the end, a little surprised by such unanimous consent, the two of them look at each other.

"So, now what?"

"Now we lock ourselves in the office and we start drawing."

The skylight would then be soon repaired, but luckily our fantasy is still a place where rain leaks into.

Style Dept.

#Counter

The flagship item of Hi Retail that made the brand famous in the shopfitting industry, the counter, is reborn in a new, young and captivating form.

Four models that do not represent the classic collection: they are unique pieces, made even more special by their customisation possibilities. These items are meant to highlight the wide range of finishes of Hi Retail: modern prints, laminates and lacquering with trendy colours.

essence

Essence Capsule Collection

Our Essence Capsule Collection takes life from wood, the fundamental element of our production.

Essence comes from the Italian word "essenza", which recalls the different types of wood. "Es", which in psychology represents the voice of nature in the soul of man, and "sence", which in sound reminds of the five senses that are stimulated to discover every detail.

The concept combines the warmth of wood and its eco-friendly nature with metal, which is used for its structural strength but is enhanced in every detail.

Not only formal details: Essence Capsule Collection hides an innovative rack system. Easy, functional and designed to enhance the solid wood.

RAINBOW

Rainbow is the result of a careful study of the current trends.

It's not only a line, it's the right idea to approach all kind of shops and retail spaces. Just playing with the several finishings, it is possible to obtain different styles and atmospheres: classic, elegant, minimalist, total black or colorful look.

The pictures are of great-looking and transmit a real emotion to attract the customer. With the right color and shape combination the retail spaces turn into an original and attractive point of sale: "make the difference" is now so important in the shop fit out world.

Dynamism, lively, color and the joy of furnishing best describes the new revised Linea Zero range.

New furnishing objects designed for shop in shop solutions and dedicated to multiple sectors: sports and leisure, casual wear, fashion accessories and cosmetics.

New York was used for inspiration for this range revision and it gives Linea Zero an cosmopolitan and international flavour.

Set of tables in Calce, Rovere Americano and Matt Black chipboard

The shop design is a real art just like the art of tailoring. You can enhance standard items using special marble finishing together with shop decor that make the point of sale welcoming and inspiring.

An attractive look combined with a stable and functional structure.

A new twist on wall fit out with back-lighted columns and thinner shelves fixed on walls with pattern, combined with refined middle units. Lastly original free-standing mirror which can be a real piece of furniture.

Display unit in Marmo Nero chipboard / brushed brass metal hanging bar and shelves

Technology, design and minimalism merge together to create a modern elegant solution that makes the products the center point and gives your shop an elegant atmosphere.

Lighting is a feature of this line and can be used on all pieces.

You can obtain the required mood altering the finish of the surfaces. The use of LED lighting and the right combination of the different surfaces make the wall panel like a painting where the garment is enhanced. The freestanding units look like a minimal sculpture where the items comes alive.

A baroque-inspired collection, with the fresh and trendy approach typical of Hi Retail.

The lacquered finishes offer a wide range of combinations, ideal for all spaces that want an elegant and refined style, without being excessive. In addition to the more classic proposals, Linea 8 suits to give unique emotions even in herbalist shops, flower shops, beauty centers and bakeries, thanks to our customizable prints.

In our proposals the baroque details are highlighted by the glossy white paint and by a damask-effect print that recalls precious 18th century palaces. For an even more impactful design we chose glass and golden finishes for an evocative effect of light and shadow.

Consolle e counter *Consolle and counter*

WALL SYSTEM

Montanti a parete con sistema a cremagliera
Wall uprights with rack system

Our Wall System Collection offers the best wall systems, from classic to the modern styles these are out of the box solutions.

Wall furniture is not just a simple display solution, it sets the tone of the whole interior with panels and uprights that can set the mood of the whole store.

Printed wall panels, coloured display bars, light effects: your walls can become the focal point of the store.

Our versatile magnetic panels allow you to decorate every space, even the most crowded areas.

In our Wall System Collection, beauty merges with functionality: you only have to use your imagination and the right combination of products and finishings.

COLLECTION C.19

A system of dividing panels designed to optimise spaces according to beauty and Made in Italy.

The C.19 dividers are easy to install and clean and you can effortlessly move them from one area to another. They can be used in any situation as screens, dividing panels to create reserved areas or decorative elements in windows.

We found inspiration from what moves us most like art, conviviality and peaceful moments to give birth to the four lines Sunset, Kandinsky, Ice Cream and Clear.

*Ice Cream table line with Mustard Yellow and smoked plexiglass / matt black metal painted structure

#Scenery

Every day we look for refined shopfitting solutions where functionality and design live together.

This is why we have reinterpreted the design with the new concepts of scenery and ambient, in which the single product is enhanced by the whole.

Our catalogue products are selected according to the specific needs of the customer and his business customizing colors, materials and finishes; then skilfully mixed and assembled. In this way we give life to settings with a strong character and visual impact.

Es Concept Store

Es Concept Store boutique was born combining the green philosophy of Essence Capsule Collection with a trendy interior design project.

In the large open space in the city center, we have studied minimal furniture, designed to enhance the product in all its forms. The pastel colors of the walls, coordinated with the Venetian terrazzo floor, make the atmosphere welcoming and elegant.

Arches and soft shapes are the strong points of the project, with niches obtained in the back counter and a plaster wall decoration that covers a part of the exhibition space.

Pink is

Our proposal for the beauty and personal services world is refined, elegant, harmonious, to welcome the customer and make him feel at home.

A pastel-inspired shop furniture, in shades of light blue and powder pink with brass-painted inserts, is made captivating by the quote chosen for the back-counter wall.

The shopfitting, in addition to the niche with the backlit shelving, is embellished in every workspace with our innovative wall galleries, which give to the product display functionality and design. Not only beauty but also ease and technology: thanks to the innovative magnetic attachment, allure and versatility come together in a single space.

Sport City

Urban style and concrete effect, fluo details combined with smoke gray and matte metal. These are the essential elements of our proposal for this sporty city store.

Different thematic areas, each aimed at a discipline, where are displayed clothes and tools dedicated to it.

To focus all the attention on the product, we used backlit shelves, LED lights and neon effects. Particular emphasis was given to the footwear area, where we set up an entire wall system in the back wall of the store: a unique scenographic impact.

SALES TERMS & CONDITIONS

Goods shall be always delivered ex works (EXW - Incoterms ® 2020).

Upon request, the delivery can be arranged by Brugnotto on the Buyer's behalf (DAP – Incoterms 2020). In this case, the transport cost will be charged on the related invoice.

If the Buyer finds an identifiable fault, it must be reported in writing to Brugnotto, within 7 (seven) days from the receipt of the products.

The claim shall include the invoice details and an accurate description of the claimed fault together with photographs, where possible.

Any return of faulty products shall be previously authorised in writing by Brugnotto.

Any dispute shall be submitted to the exclusive jurisdiction of the Court of Treviso (Italy).

PACKAGING

Goods shall always be shipped on pallet.

For orders of small amounts (less than Euro 500,00), extra packaging costs shall be charged on the related invoice, depending on the packing materials that will be used.

Any special packaging (wood box, ISPM 15-compliant pallets, etc.) is an extra cost that shall be charged on the related invoice.

CUSTOMIZED PRODUCTS

Customised and/or standard items of different sizes will be quoted with net prices.

RESEARCH AND DEVELOPMENT

Brugnotto reserves the right to carry out, at any time, on his own products such non substantial modifications as it deems suitable, without any prior notice.
